DETAILED ACTION

Acknowledgment is made of the amendment received on 6/07/04. Claims 14, 16, 19, 22, 28, and 35-69 currently pending.

Allowable Subject Matter

1. Claims 14, 16, 19, 22, 28, and 35-69 are allowed.
2. The following is an examiner's statement of reasons for allowance: although the Fraser invention does disclose a video camera, an image processor, and a multimedia computer, the prior art of record, particularly the Fraser invention, fails to teach, or fairly suggest either alone or in combination thereof, a video camera system wherein a digital data processor, a video data capturing system and a memory module housed within a camera body. Furthermore, Fraser fails to teach scanning the barcode with a barcode scanner directly connected to the video camera system by a port in the camera body thereby generating an electrical signal in response to scanning the bar pattern.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
